**Paulette Salo • Angelic Impressions**

Several years ago Paulette began painting personal guardian angels. Her inspiration came from children who were battling life-threatening illnesses. In talking with these children she realized that they themselves talk with their guardian angels and have an idea of what they look like. So, she began painting these guardian angels allowing her intuition to guide her through these paintings.

What happens at an Angel Party?

**1:00-1:30** Conversations with Paulette about guardian angels

**1:30-9:00 pm** Paulette will paint angels for the 8 people who register for this workshop.

Each participant will submit their name and personal intention to their angel on the registration form. Paulette will paint these portraits prior to the workshop. Please see her website for further information. <http://www.paulettesalo.com>. You may contact Paulette at [paulettesalo@aol.com](mailto:paulettesalo@aol.com) if you have any questions.
