ARTIST Paulette Salo • Angelic Impressions

Do you believe in angels? All are welcome for this talk with Angel Artist and Intuitive Paulette Salo. She will share the history of angels in her life - why she began painting them, what the message they have for her, and how angel guides play important roles in our lives. She will also share insights from her book "Talking with your angels - the easy way" as well as the wonderful, true stories behind the angel portraits she has created. Participants are invited to share their own angel stories during this one hour talk!

The Angel Artist By Paulette Salo

I call myself “The Angel Artist” now after 10 years of painting guardian angel portraits for people. What started this exciting, rewarding and wonderful gift I received from above? When I was 20 years old, I had my first near-death experience and traveled down the tunnel and saw the very bright light surrounded with a peach color. Coming toward me were many people that I loved and had missed so much. “Oh I so happy to see you – and you- and YOU!” I said to all of them. It was so wonderful to be with them again! Then, came an angel with a beautiful box. She told me that I had to go back and do my mission. “NO, I don't want to go back” but back up the tunnel I went. The angel said I won't remember my mission and I didn't. I went on to have 2 more near-death experiences, all the same. I had to return to do my mission. Finally, shortly after my third NDE at the age of 60, a psychic told me my mission – I was to paint the guardian angels for terminally-ill children in the hospitals. So, finally I knew and paint I did! I painted over 2,000 free angels for these wonderful children. Each child recognizing their angel. Finally, I broke down and decided I had to paint for all the people who asked for their angels done, too, but weren't sick. I've painted more than 6,000 angels now So, here I am – doing what I truly love more than anything else in my world!

So, how do I do it? I simply ask your angel to come through me and draw herself/himself and they do! Then, they tell me their name and give me a message for you that is pertinent for right now. The angels truly help us to connect to our higher self and give us guidance when we are at a loss. When you talk to them, you give them permission to act for you and accomplish miracles where you couldn't. Don't forget to always so “Thank you” whenever you ask for something from your angels!)

The angels have written a book and I have illustrated it. It's called “How to Talk to Your Angel.....the easy way”. It tells you just that. Also, it suggests a day of gratitude. Saying thank you for everything you take for granted and limit the amount of negativity that day. You will raise your vibration so that you can attract only the good things you

desire so much. Try it one day. It's not as easy as it sounds, but it definitely will make a difference in your life. I am an artist and I channel angels. We all can talk with our angels. Just open your mouth start talking!! (That's what it says in the book) You talk with them just as you talk to your best friend – for they ARE you BEST FRIEND!! They never criticize and always LOVE you. What could be better?! Listen to your angels by noticing the little things– a ringing in your ears, or a knowing in your heart. Some people actually hear words, most of us get a “knowing”. Pay attention to that and as you practice paying attention, you will truly become “ in tune” with the angels and you will be the expert you were meant to be!

Prices: angel book -\$10, pastel angels, \$75.00(available on canvas for \$150) There is a substantial discount for more than one angel painting.

If you would like to receive 2 free angels – HAVE AN ANGEL PARTY! Simply gather 5-20 friends and allow me to paint at least 5 angels for them. Everyone doesn't have to order an angel, my mission is to show you how wonderful it is to connect to angels and how easy it can be done. Come and tell your angel stories and I will share the stories from my new book coming out this winter - “ Angel Stories by an Angel Artist”.
